SC-LOCKER-24™

Secure Charging Locker

SC-Locker-24™ offers a secure, centralized, location to charge and deploy hospital issued and/or patient personal mobile devices. Equipped with 4 charging ports – 2 USB and 2 outlets each locker bay conveniently can charge laptops, tablets, mobile phones, headsets and other devices. Locker bay windows provide visibility to which space is available without having to ever touch the screen. Customized settings and remote administration allow for seamless integration into IT workflow.
