

Riello UPS

Reliable power for a sustainable world

Why Riello UPS?

Riello UPS is the smart choice for clients looking to keep their business running smoothly, even during power outages or surges. Their UPS systems are reliable, protecting your clients valuable equipment.

Comparable Models

Riello UPS is a globally recognised leader in the design and manufacture of uninterrupted power supplies (UPS) and energy storage systems. Comparable to the market leader, Riello is known for its reliability, efficiency, and innovation. Their UPS solutions provide critical power backup to protect businesses and sensitive equipment from power outages.

Product Range

Riello offers a diverse product range to suit various power protection needs, from small businesses to large enterprises. Their standalone UPS systems are perfect for home offices and smaller setups, providing reliable power backup for essential devices. For IT environments and data centers, Riello's rack-mount UPS models offer high-density power protection that fits neatly into server racks, saving valuable space. For larger operations or businesses looking to scale, Riello's modular UPS solutions provide flexible, easily expandable power protection, ensuring your customer is always ready to grow without compromising on reliability or efficiency.

Sentinel Pro (SEP 3000 ER)

The Riello Sentinel Pro UPS delivers reliable, high-performance power protection with online double-conversion technology, ensuring continuous, clean power and safeguarding critical systems against outages.

Sentinel Rack (SER 1500)

The Riello Sentinel Rack UPS offers reliable power protection in a compact rack-mount design, featuring online double-conversion technology to ensure uninterrupted, clean power for critical systems and equipment.

Sentinel Dual (SDH 1500)

The Riello Sentinel Dual UPS provides robust, dual-conversion power protection with its compact design, ensuring uninterrupted and clean power for critical systems and sensitive equipment.

Sentinel Dual SDU (SDU 10000)

The Riello Sentinel Dual SDU UPS offers reliable, dual-conversion power protection with a compact design, ensuring consistent and clean power for sensitive equipment and critical systems.
